

We are pleased to announce an upgrade to our circular wash fountain models 356 & 358

**NEW VERSION SOAP DISPENSER LID WITH EASY ACCESS**

This upgrade may be retro-fitted and will be of interest to all customers / users who currently have these wash fountains installed

**Special Features**

- ▲ QUICK AND EASY ACCESS USING LOCKABLE LID
- ▲ SINGLE SMALL KEY FOR ACCESS
- ▲ REDUCES RISK OF INTERNAL SOAP SPILLAGE
- ▲ SOAP DISPENSER OUTER RIM SECURED
- ▲ EXTRA VANDAL RESISTANCE
- ▲ EASILY AND QUICKLY INSTALLED
- ▲ KEY FITS OTHER ACORN POWELL SUPPLIED PRODUCTS

**Description**

The new version soap dispenser lid replaces the original version which required full removal each time to refill the soap reservoir. This involved the use of a large multi-purpose spanner for access.

The new version has a hinged lockable central panel providing access for soap refilling. The supplied tumbler lock is provided with a key which also fits other Acorn Powell supplied washroom accessories. The improved ease of access enables quicker checking of the soap reservoir and also reduces the risk of overfilling the container. The new lid allows for permanent secure fixing to the central column.

The new lid is supplied with easy step by step fitting instructions.

Further details and downloadable fitting instructions may be found at our web site [www.acornpowell.co.uk](http://www.acornpowell.co.uk)

The price for this upgrade is £45.00 nett excluding VAT and postage/packing
