

Special Features

- ▲ VANDAL RESISTANT
- ▲ INTEGRAL FRAME
- ▲ ONE PIECE CONSTRUCTION

Description

The integral frame stainless steel mirror is highly polished and is designed for use in all areas, in particular those subject to vandalism. Suitable for surface mounting, the mirror is available in one standard size.

Construction

The mirror and integral frame are manufactured from heavy gauge grade 304 stainless steel, die-formed in one piece, with all exposed surfaces polished to a mirror finish. The mirror is supplied drilled with countersunk screw holes for surface mounting (screws supplied).

Size

The mirror is available in one standard size:
286 x 438 mm
